

- Ready mixed Calci-coater
- Ceiling and wall paint
- For use over old calcimine paint
- Can be tinted
- VOC compliant

# Olde Yankee Towne

## Description

An interior flat white calci-coater paint formulated to adhere to old calcimine and white wash surfaces where most other paint fails. It is the time-tested answer for older buildings with calcimine ceilings. Olde Yankee Towne also is useful over old paint, plaster, sheetrock, composition wall boards and non-bleeding wallpaper.

## Application

Remove loose particles, grease, and dust before applying paint. Surface must be dry. Dull glossy paint with Sterling Sanding Liquid or by lightly sanding. Wipe up sandpaper dust. Stir Olde Yankee Towne calci-coater to a smooth, creamy consistency. Spot prime stained areas. Apply as supplied with brush, roller, or airless spray. Do not thin. Flow on, do not brush out. Allow 24 hours between coats. Two coats are recommended for best results, although one coat may be adequate in some cases. May be tinted with oil or universal colorants.

## Typical Properties

Non-volatile: 74%

Binder: Limed Oil

Solvent: Mineral Spirits

Color: Flat White

Weight per Gallon: 14.25 lbs
